SUMMARY

Mental health counselor based in Albany, NY, with over five years delivering crisis intervention, behavioral assessments, and clinical support to diverse groups in an academic-affiliated clinical environment emphasizing research-informed practices. Applies psychology, behavioral analysis, and statistical analysis to recognize patterns and assess human risk in security, operations, and digital environments. Proven in collaborative teams; seeking roles in analysis, security, or related fields.

EXPERIENCE

Mental Health Counselor

McLean-Franciscan Child & Adolescent Inpatient Program – Brighton, MA

Full-time: May 2014 – October 2018 · Per diem: October 2018 – December 2020

- Provided clinical counseling and therapeutic support to adolescents with diverse emotional, behavioral, and diagnostic needs in a secure inpatient setting.
- Conducted behavioral assessments to identify triggers, developed individualized treatment plans, and monitored progress toward resilience and stability.
- Led evidence-based CBT and DBT groups to build skills in emotional regulation, coping strategies, and interpersonal dynamics.
- Managed acute crises with de-escalation, safety planning, and rapid intervention to protect clients and prevent escalation.
- Collaborated with psychiatrists, nurses, and social workers to coordinate care, share insights, and align treatment goals.
- Trained and mentored new staff and clinical interns on therapeutic protocols, accurate documentation, ethical standards, and patient-centered safety measures.
- Maintained clinical standards and continuity of care during per diem shifts.

Research Assistant

UBS Financial Services Inc. – Albany, NY

May 2012 – September 2012 · Full-time

- Conducted economic and market research using industry reports, official data sources, and analytical tools to inform investment decisions.
- Evaluated financial instruments and securities for client portfolios and applied quantitative analysis to assess risks and opportunities.
- Developed research primers and supported asset-allocation strategies for high-net-worth clients.

Intern

Morgan Stanley Smith Barney – Albany, NY

May 2011 – August 2011 · Full-time

- Assisted in synthesizing financial data and performing trend analysis to create client-facing reports and materials.
- Contributed to portfolio reviews, transaction pricing, and preparation of investment recommendations.

EDUCATION

Boston University

Boston, MA

May 2015 – May 2018

Completed more than 24 graduate-level credits in Clinical Psychology, Cognitive and Neuropsychology, Research Methods, and Advanced Statistics (non-degree).

Siena University

Loudonville, NY

Bachelor of Arts in Psychology · Graduated December 2013
